

Launch Your Career Through Hands-On Skills Training, Job Placement & European-Style Apprenticeships

Manufacturing Career Launch Pre-Apprenticeship Program

What Will You Learn?

The AmSkills Pre-Apprenticeship Program will teach you the foundational skills needed to start a career in advanced manufacturing and you will explore three career tracks including Mechatronics, Machining (CNC) & Industrial Maintenance:

- ✓ 80% Hands-on Skills Training
- ✓ Tours to Local Manufacturers
- ✓ Preparation for Job Interviews & Coaching
- ✓ Paid Semi-Skilled & Skilled Apprentice Placements

Who Should Join Our Program?

Anyone who:

- ✓ Enjoys working with your hands
- ✓ Building things
- ✓ Not sure what your next career path is
- ✓ Wants a well paying job & career
- ✓ No college debt

Hands-On Training & Job Placement!

After successful completion of 400-600 hours, candidates will be eligible for paid semi-skilled jobs or skilled Apprenticeship Opportunities. Candidates must meet all program requirements to be eligible. Placements are based on market availability.
